

VIÑA ERRÁZURIZ: OUTSTANDING VALUE WINERY OF THE YEAR 2015

The 10th Edition of the WineAlign World Wine Awards of Canada has just announced its 2015 winners and named Viña Errázuriz its Outstanding Value Winery of the Year.

This new World Wine Awards category honours the winery with the highest aggregate value score of its top five scoring wines. The wines were rated with a sophisticated formula based on their quality and price for an objective approach to the concept of value.

In WineAlign VP David Lawrason's words, "Who owns bragging rights as Outstanding Value Winery retailing in Canada? That would be Errázuriz of Chile. This winery entered eleven wines in the WineAlign World Wine Awards of Canada and took seven value medals—three gold, three silver, and one bronze."

The annual World Wine Awards of Canada is open to imported and domestic wines that retail in Canada for less than CAD\$50. This edition of the competition brought together 18 judges from across Canada who spent five days tasting close to 1,000 wines.

The 2015 Outstanding Value Winery of the Year award follows closely behind the inclusion of Viña Errázuriz on the Wine & Spirits "Top 100 Wineries of the Year," an honour that underscores the quality and consistency of its wines in every range.
